Select the strategic area(s) the proposed intervention aims to target or strengthen.

- Detect
- Treat
- Prevent
- Build

11. What NTEP National Strategic Plan priority does this intervention address?

Clearly describe how your intervention aligns with one or more priorities outlined in the [NTEP National Strategic Plan](#) (350 characters).

350 character(s) remaining

Intervention Summary

12. What problem will this intervention solve, or what question will it answer?

Provide a detailed explanation of the specific problem the proposed intervention aims to address or the key question it seeks to answer. You may highlight its relevance to NTEP priorities in the local context and how it contributes to tuberculosis (TB) elimination efforts (1000 characters).

1000 character(s) remaining

13. Briefly describe the intervention.

Provide a concise summary of the proposed intervention, including its objectives, key activities, targeted population, partnerships, and expected outcomes (2,500 characters).

2500 character(s) remaining

14. What measurable results do you expect from this intervention or research activity?

Specify the tangible outcomes and results - using indicators and target numbers where possible - the proposed intervention aims to achieve (500 characters).

250 character(s) remaining

15. In what geography, state(s) or district(s), will you implement the intervention or conduct the research?

Specify the state(s), district(s), and sub-districts where the intervention or research will be carried out, including any relevant details about the target areas or populations within these geographies, if applicable (250 characters).

250 character(s) remaining

16. What is the estimated duration for this project in months (up to a maximum of 12 months)?

Indicate the total number of months required to complete the proposed intervention or research, including planning, implementation, monitoring, and evaluation phases.

17. How does the state propose to integrate, scale, and sustain the work initiated through this intervention once completed?

Indicate how the state plans to fund the continuation of the activities after the award period and any staff or other resources that will be allocated to sustain or scale the work).

500 character(s) remaining
